

CPI STONE SHIELD

CPI Stone Shield is a colorless non-flammable surface treatment that produces an invisible protective coating on concrete and stone. The coating is water and oil repellant resisting soils, stains, and biological growth. It is also vapor permeable so cracking, spalling and freeze/thaw damage is reduced.

Product Description:

CPI Stone Shield can be applied to stone and concrete surfaces to prevent water penetration and reduce the effects of atmospheric deposits and soil.

Benefits of using CPI Stone Shield:

- Non-flammable: Safe to use almost anywhere.
- Colorless: This leaves an all but invisible film on the surface of the stone or concrete and does not change the surface appearance or leave a glossy finish.
- Breathable: Though water does not penetrate this barrier, moisture vapor does, which allows it to escape reducing the damages caused by cracking, spalling, or freeze/thaw.
- Makes cleanup easier: The sealed water repellant surface will be resistant to staining and atmospheric contamination, and resists the growth of biological contaminants.
- Environmentally Friendly: With no toxic solvents or additives and very low VOC content, CPI EZ Shield causes little or no pollution.

Properties:

- Type: Water based fluoropolymer shield.
- Color: Colorless
- Odor: Very low
- Toxicity: Non-toxic
- VOCs: very low
- Flammability: Non-flammable
- Composition: Fluoropolymer solution

Coverage:

100 - 300 square foot per gallon, depending on porosity of surface

Application Instructions:

- CPI Stone Shield can be applied to vertical or horizontal surfaces by brush, roller, or low-pressure sprayer. Less porous surfaces such as brick may require the material to be brushed into the surface for proper saturation and coverage.
- Do not apply in freezing temperatures or if temperatures are going to be at or near freezing during the dry and cure time.
- Let coating dry and cure at ambient temperatures for 24 to 72 hours to reach maximum protection.

Precautionary Statement:

Eye irritant. May be harmful if swallowed.
