

### CPI SUPER PREP

CPI SUPER PREP is a safer replacement for Muriatic acid to deep clean concrete, natural stone and brick to remove lime, scale, excess mortar, algae and stains. This product helps to prepare concrete surfaces to insure reaction and penetration of our acid stains. Use of this product also insures better bonding of spray textures and overlay applications.

#### Properties

- \*Type: penetrating acidic detergent renovator
- \*Color: blue
- \*Odor: pleasant
- \*Toxicity: low- do not take internally
- \*VOC's: low
- \*Flammability: nonflammable
- \*Composition: biodegradable surfactants, inhibitors and acidic boosters.

#### Coverage:

Approximately 300- 400 square foot per gallon depending on porosity and degree of contamination.

#### Application Instructions:

CPI SUPER PREP first needs to be diluted 1:1 with water. Never use CPI SUPER PREP full strength. Mix one part CPI SUPER PREP to one part water in an all plastic pump up sprayer, adding the water first to prevent excess foaming during mixing. Shake to mix and apply generously to the area you are working in. Use a scrub brush, shop broom, or buffer with a stripping pad to work mixture into the pores of the surface to deep clean and remove all laitance. Rinse thoroughly with water, do not allow the solution to dry on your surface. If needed, reapply or spot treat to achieve a clean, porous surface that is free of contaminants. Rinse thoroughly until water runs clear and no residue, suds, or bubbles are left. CPI recommends mopping with a pH neutral cleaner as your next step to ensure surface is no longer acidic and is ready to accept the stain or sealer.

**Caution:** Some types of stainless steel, chrome plating, porcelain, steel, and polished decorative aluminum may be discolored. Test before using. Do not use on magnesium or zinc (galvanized).

#### Product Description:

SUPER PREP is a penetrating concrete cleaner and renovator that quickly dissolves lime deposits, scale, rust, mortar, algae and mud stains from interior or exterior concrete without the danger of raw muriatic acid.

**Storage and Disposal:** Do not expose to temperatures below 40°F or above 90°F. Keep container closed when not in use. Do not transfer contents to other containers for storage or disposal. Do not reuse empty container, wash with water and discard in the appropriate matter.

**Precautionary Statement:**

Harmful if swallowed, contains Hydrogen Chloride and Hydrogen Sulfonate in addition to penetrants and may irritate the skin. Goggles and protective clothing are recommended for maximum protection.

**Safety Precautions:**

Wear protective clothing, respirator, chemical resistant safety glasses, and gloves at all time.

**First Aid:**

If ingested.. do not induce vomiting. Drink two glasses of water or milk. Get immediate medical help.

If in the eyes.. flush thoroughly with water for 15 minutes, lifting both eyelids. If irritations persist, Get Medical Help.

If on skin.. rinse off thoroughly with water then soap and water. If irritation develops, Get medical help.
